

Quality Policy

Aile Aviation Services BV operates as an independent aviation supply and logistics partner supporting airlines, maintenance organizations, and aviation service providers with the sourcing and delivery of aircraft parts and related services.

The Company recognizes that trust within the aviation supply chain depends on transparency, documentation integrity, regulatory awareness, and predictable commercial execution. Quality Management is therefore an integral part of our operational framework.

Aile Aviation Services B.V. is committed to:

- complying with applicable statutory, regulatory, export-control, and customer-specific requirements
- sourcing products from recognized aviation industry suppliers supporting authenticity and traceability
- providing certification and documentation as received from approved sources with clear communication of documentation status prior to order confirmation
- maintaining reliable and transparent quotation, order confirmation, and logistics coordination processes
- applying risk-based thinking across sourcing, supplier evaluation, and delivery activities
- supporting customers through responsive and predictable service aligned with regulated aviation environments
- ensuring personnel competence and awareness of their responsibilities within the Quality Management System
- continually improving the effectiveness of the Quality Management System

Top Management is committed to maintaining and continually improving the effectiveness of the Quality Management System in accordance with **ISO 9001:2015**

This Quality Policy is communicated within the organization and made available to relevant interested parties.
